

Industrial Cylindrical Attenuators

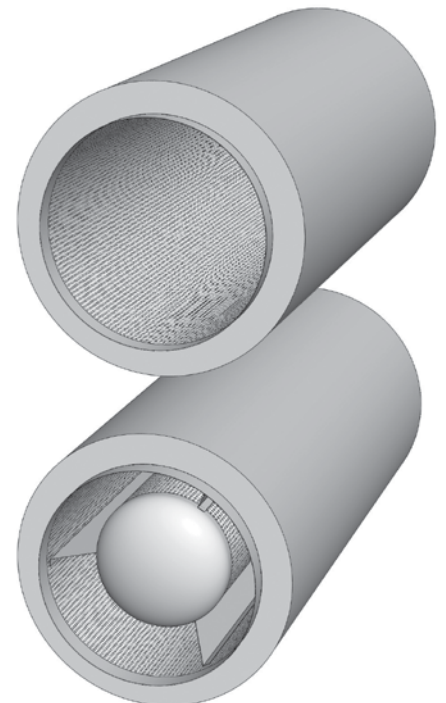

Heavy durable construction.

Our Industrial Cylindrical Attenuators are similar to HVAC Cylindrical Attenuators, but with heavier construction for increased durability in harsh, high noise level and exterior environments.

Insertion loss and pressure loss are the same as our HVAC Cylindrical Attenuators, but with increased mass due to the heavier construction.

- Manufactured to individual requirements.
- Specific custom sizes available.
- Exterior casings manufactured from either pre-galvanized sheet steel or hot dip galvanized mild steel. Stainless steel option available.
- Powder coat or epoxy paint finishes available. Colour and coating specifications to customer requirements.
- Melinex lining available.
- High temperature infill (Rockwool) available.

For more information see the HVAC Cylindrical Attenuators brochure and contact us.
