

Industrial Rectangular Attenuators

Heavy durable construction.

Our Industrial Rectangular Attenuators are NCT/NCS Rectangular Attenuators with a heavier construction for increased durability in harsh or exterior environments.

Insertion loss and pressure loss are the same as NCT/NCS Rectangular Attenuators, but with increased mass due to the heavier construction.

- Specific custom sizes available or manufactured to individual requirements.
- Exterior casings manufactured from pre-galvanized sheet steel or black mild steel. Stainless steel option available.
- Welded or bolted construction.
- Colour and coating specifications to customer requirements. Powder coat or epoxy paint finishes available. HDG finish available in some circumstances.
- Melinex lining available.
- High temperature infill (Rockwool) available.

For more information see the NCT/NCS/NSM/NTM Rectangular Attenuators brochures and contact us.
